SECTION 4 - FIRST AID MEASURES

Description of first aid measures:	
In the event of skin contact:	Immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Wash clothing before reuse. Clean shoes thoroughly before reuse. Get medical attention immediately.
In the event of eye contact:	Check for an remove contact lenses. Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical attention immediately.
In the event of swallowing:	Wash out mouth with water. Do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Get medical attention immediately.
In the event of exposure by inhalation:	Move exposed person to fresh air. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. Loosen tight clothing such as a collar, tie, belt or waistband. Get medical attention immediately.
Indication of any immediate medical attention and special treatment needed:	No specific treatment. Treat symptomatically. Call medical doctor.

SECTION 5 - FIREFIGHTING MEASURES

OSHA flammability class:	Non-combustible liquid
Suitable extinguishing media:	Carbon Dioxide, dry chemical or fine water spray. Avoid water stream on molten burning material as it may scatter and spread the fire.
Special firefighting procedures:	Wear self-contained breathing apparatus and protective clothing approved by NIOSH. Watch footing on floors and stairs because of possible melting and spreading of material. Use spray to keep containers cool.
Unusual fire and explosion hazards:	Flash point >400°F/204°C. After water evaporation the solids will melt in proximity to fires causing slippery floors and stairs.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures:	Wear appropriate PPE such as respiratory, safety glasses, rubber safety gloves and appropriate clothing to avoid absorption through skin, contact with eyes or inhalation, if product is being used in large volumes.
Methods and material for containment and clean up:	<p>Small spill: Wipe the affected area and collect spilled material. Wash the affected area with water.</p> <p>Major spill: Do not let large volume spills or leakage enter watercourse. May be toxic to aquatic life. Absorb with oil-dri or similar inert material. Sweep or scrape up and containerize. Report major leaks and spills to the appropriate local, state and federal government.</p>

SECTION 7 - HANDLING AND STORAGE

Precautions for safe handling:	Always wear recommended personal protective equipment. Avoid breathing fumes from heating operations. Avoid spillage which can cause very slippery conditions on floors. Use good personal hygiene and housekeeping.
Conditions for safe storage including any incompatibilities:	Avoid excessive heat. Keep from freezing.

SECTION 8 - EXPOSURE CONTROLS / PERSONAL PROTECTION

Control parameters:	
Appropriate engineering controls:	Adequate ventilation is normally required when handling or using this material. If vapor or mist is generated, provide local exhaust ventilation to prevent airborne exposure.
Individual protection measures, such as personal protective equipment:	
Eye/face protection:	Avoid eye contact. Wear safety spectacles, goggles or, for larger quantities, a full face mask.
Skin protection:	Skin contact should be minimized through the use of gloves and suitable long-sleeved clothing and protective apron.
Hand protection:	Gloves
Other protective equipment:	Gloves, overalls, apron and boots, as necessary, to prevent skin contact.
